Other flexible packages with polyethylene (PE) interior that require one-way release of pressure from inside the package.

Specification

Machine Model	APVA-1801
Overall dimensions	380Wx406Dx380H mm
Total weight	26 Kg
Air pressure	6 bar
Power	220-480V /1P/50 - 60Hz
Min bag width	80 mm width with 25mm gusset per side

Features

- Easy setup
- Easy operation
- Low maintenance
- Very efficient
- Requires one operator
- Price FOB Taiwan USD\$6,900.00

Technical information

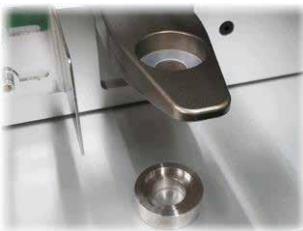

- Choice of two ways to trigger the sealing action.
 1. By pressing the switch
 2. By pushing the pouch in
- Movable sliding device adjusts the distance of the valve from top of the pouch.

- Digital Counter: Warning when preset amount is reached
- Digital Sealing timer: Adjustable sealing time to assure consistent quality.
- Digital Temperature controller: Adjustable temperature to assure consistent quality.
- Air filter-regulator: Adjustable sealing pressure to assure consistent quality.

- Ability to change sealing tools to fit different sizes of valves.
